

August 12, 2009

Hon. Joseph Lieberman
Hon. Susan Collins
United States Senate
Washington, DC 20510

Hon. Edolphus "Ed" Towns
Hon. Darrell Issa
United States House of Representatives
Washington, DC 20515

Dear Senator Lieberman, Senator Collins, Representative Town and Representative Issa:

As leaders of the Senate Committee on Homeland Security and Governmental Affairs and of the House Committee on Oversight and Government Reform we are asking you to investigate the possible infringement by the Executive Branch of the constitutional protection free speech afforded the American people.

On Tuesday, August 4th at 6:55 A.M. the Executive Office of the President in the White House sent a message to the American people via the official taxpayer-funded website whitehouse.gov asking Americans to forward back to the White House any email they received that seemed "fishy" as it related to proposed health care legislation.

In relation to private emails between individual Americans, the White House stated, "Since we can't keep track of all of them here at the White House, we're asking for your help." The White House staff then instructed those who support the President's proposals to forward emails to them at a special email address set up on government computers. This is a direct and deliberate attempt to track the free speech of American citizens.

The American people are concerned that the staff in the Executive Office of the President might keep a log of those email addresses of individuals who oppose the President's policies. Further the staff could track IP addresses and attempt to seek out the computers of those sending issue-based messages. This raises very serious privacy concerns and the possibility that the White House staff could seek to intimidate or use the levers of government against American citizens who are exercising their constitutional right to free speech.

Freedom of speech and disagreement is a hallmark of our democracy and of any democracy that hopes to survive. It is critical that any concerns be put to rest as it relates to the possibility that the President's staff could engage in the tracking of individual Americans who oppose the President's policies.

Therefore, we call on your respective committees to launch investigations into this White House program to track and trace the emails of American citizens.

In addition to our signatures, please see the names of thousands of other Americans representing thousands more who are calling on your Committees to act.

Sincerely,

David A. Keene
Chairman, American Conservative Union

Dennis E. Whitfield
former Deputy Secretary of Labor
Executive Vice President, American
Conservative Union
