## OHIO

### *ACU Presents 2011 State Legislative Ratings*

The American Conservative Union is taking our highly touted Congressional Ratings program to State Legislatures for the first time ever, grading members on their votes on key conservative issues. In the first year of this new initiative, we are grading State Legislators in the critical battleground states of Florida, Nevada, North Carolina, Ohio and Virginia.

ACU first began rating members of Congress in 1971. Since then, our ratings system has become the most important conservative measuring stick in American politics – the gold standard for voters seeking more information on their representatives’ records.

This inaugural expansion of our Conservative Ratings program is part of Chairman Al Cardenas’ vision for building on successful ACU initiatives and taking the fight for conservative principles to the state and local levels. In coming years, the ACU will increase the number of State Legislatures graded, adding to these initial five target states.

## THE AMERICAN CONSERVATIVE UNION

November 9, 2011

Dear Fellow Conservative,

On behalf of our entire Board of Directors, I am pleased to present The American Conservative Union's *2011 State Legislative Ratings* for members of the Ohio General Assembly.

*Al Cardenas, ACU Chairman*

We've become the gold standard in Congressional ratings, which we've done since 1971, and we're pleased this year for the first time ever to expand this trailblazing commitment to the state level. Just as we hold every member of Congress accountable for his or her voting record on the most important issues facing our nation, the American Conservative Union is ensuring voters in bellwether states like Ohio have access to the latest information on their state legislators' conservative credentials.

There could not be a more critical time for conservatives to unite. Now approaching three years under the management of Barack Obama, there is no question America has withstood change – from crushing debt and unconstrained federal spending to a discomfoting loss of international standing in a world more complicated and perilous than ever. Thankfully, this extraordinarily liberal Administration has reignited the national conservative movement in states across the country and driven millions of Americans across the country to activism and engagement in ways we have not witnessed in decades.

With State Legislatures playing host to many of the most significant and controversial policy debates facing Americans – from fighting ObamaCare to cutting spending to preserving traditional values – the ACU is committed to playing a defining role in these conversations. In states across the nation, there are countless examples of courageous leaders shunning big-government solutions in favor of ambitious conservative reforms that advance prosperity and individual freedom. We have an opportunity to foster the next generation of conservative leaders, and the best way to accomplish this is to reach into states that are on the front lines of the battle for the future of our great nation.

Thank you for your continued support. I know that, together, we can ensure America's best days are still ahead.

Sincerely,

Al Cardenas  
Chairman, American Conservative Union

## *How We Selected the Votes*

As the nation’s largest grassroots conservative organization, the American Conservative Union serves as an umbrella organization for conservatives in America.

The ACU tracks a wide range of issues before Congress and State Legislatures to determine which issues and votes serve as a clear litmus test separating those legislators who defend liberty and liberal members who have turned their backs on our founding principles – constitutionally limited government, individual liberty, free markets, a strong national defense and traditional values.

The votes selected for our inaugural State Legislative Ratings in each of our targeted states – Florida, Nevada, North Carolina, Ohio and the Commonwealth of Virginia – are not always considered the “most important” votes as defined by others. Instead, the votes selected are chosen to create a clear ideological distinction among those casting them.

Throughout the history of our Conservative Ratings program, the ACU has become the go-to source for determining whether an elected official’s philosophical rhetoric matches his or her record. ACU’s mission in the expansion of this program is informing grassroots conservatives and the public – in an unbiased, transparent manner – on where individual members of their State Legislature fall on the ideological spectrum.

9. **H.B. 133. ACU supports these efforts to protect against voter fraud. The legislation passed by a 57-38 margin in the Ohio House on 3/23/11.
12. **H.B. 194. Election Law Reform.** This legislation made modifications to many provisions in Ohio election law. ## The American Conservative Union

The American Conservative Union (ACU) is America's oldest and largest grassroots conservative organization.

Founded in 1964, ACU represents the views of Americans who are concerned with economic growth through lower taxes and reduced government spending and the issues of liberty, personal responsibility, traditional values and national security.

As America's conservative voice, ACU is the leading entity in providing conservative positions on issues to Congress, White House Administration Officials, State Governments, the media, political candidates and the public.

The ACU's marquee initiatives include the annual Conservative Political Action Conference (CPAC) and the annual Ratings of Congress guide.

Under the leadership of new ACU Chairman Al Cardenas, the organization remains the standard bearer of conservatism in America. Chairman Cardenas is dedicated to growing the national conservative movement through the expansion of ACU programs, unprecedented outreach and advocacy – especially to young, emerging activists – and an extended reach into local and state issues. Among these inaugural efforts are the expansion of conservative ratings to State Legislatures and a first-ever series of regional CPACs in states across the country, building on the legacy of the annual national CPAC event in our Nation's Capital.
